BRIGHAM CITY, March 5.-The con-

test ball at the opera-house last night was

one of the largest attended and most en-

thusiastic social affairs held in that hall

for some time past. In fact the contest

for the most popular lady of the First

and Second wards of this city has created

no little amount of excitement for a

about fifteen ladles in the field, but final-

ly centered on three of these young la-

dies. The First ward was divided against

themselves, and worked for the election

of two candidates, Miss Amelia Grachl,

deputy county clerk, and Miss Kelly, the

came in on the last heat with a big ma-

Eliza Siggard Lizzie Kelly Amelia Graehl

ham City laundry.

A grand reception was tendered the young couple last night at the home of the groom's parents, about fifty guests participating and wishing them happiness and prosperity. Many pretty and valuable presents were presented to the young couple. They will make their home hero, residing at the corner of Seventh South and Main streets.

r of the prisoners. H. Holliman and Frank Wilson, who

confessed to having fired the two build-ings under the direction of Jennings, will be arraigned Monday.

sold. A dance was given for the children, and the day was a memorable one
in Hoytsville.

The new hall will be about 60x50 feet,
not including a large stage and two dressing-rooms. A first-class maple floor will
be put in for dancing purposes; it will be
lighted by gas and heated by a furnace.
When completed it will be one of the
best dancing halls in the State, and it is
something that Hoytsville has needed for
many years.

The winter that has just ended has been one of the mildest known in years.

JOHN O'BRIEN AT LA been one of the mildest known in years in southern Utah and the fruit-growers and truckers are jubilant over the prospect of an abundant and early crop of fruit and vegetables. At St. George the peach and almond trees are in full bloom and garden stuff is nearly all up. The sagebrush of the Escalante valley has taken on new life and vegetation of all kinds has started to grow.

Beservoir and Canal

dent, expects to resume in a short time the building of a dam at the mouth of the Little Pine valley. The completion of this irrigating project is of much im-portance since it is estimated that 5400 portance since it is estimated that \$400 acres of very promising land will be re-claimed by the dam, which is located within two miles of Enterprise and twelve miles from Modena. The country in that vicinity is being rapidly taken up by parties intending to settle there.

Word has been received from Pioche Word has been received from Ploche that the showing in the Willard property is constantly improving under the efficient management of Charles E. Rievis. It is looking so well that Judge J. M. Burton has decided to remain several days longer on the ground. The importance of the recent strike upon the portance of the recent strike upon the visit of R. W. Brady is causing neigh-boring ground to be eagerly looked into and thoroughly examined. This is an-other illustration of the fact that meritorious ground may lay dormant and undiscovered for years in a camp where active mining has been pursued for over forty years, and shows that even a lim-ited country may contain treasures which are found only after many years

Personal Sketch of Joseph Odell, Who Has Been a Strong Influence

for Republican Success. Special to The Tribune.

LOGAN, March 5,-Joseph Odell, Logan's new postmaster, is a purely Utah product, having first seen the light of day in Orden, March 15, 1970. He came t Logac in 189 and engaged in the newspa-per business. Later he attended the Agri-cultural college, after which he bought out the James T. Hammond book store. Mr. H. H. Themas of Ogden Joined him, and they ran the store in connection with a photograph gallery. In 1896 the part-

nership was dissolved, the book business closed out and Mr. Odeil devoted his time to the photograph business, in which he has been eminently successful.

Practically, he has always been a Republican. He was in the thick of the fight in the first city campaign, and helped out very materially in carrying the city. In 1896 he served as city chairman, and in 1896 succeeded Mr. H. Bullen, Jr., as the county chairman, and the brilliant victory he scored for his party is still fresh in the minds of the people. The only recognition he has ever received, prior to his recent appointment, was that of docket cierk of the Legislature in 1896. He has been sacrificed, along with others on Republican tickets in Cache's county palmy Democratic days, and has twice before made the race for postmaster, history for the machinery of the city, county and State behind him in one instance, and then was defeated. But he never was known to sulk in his tent, nor waver in his devotion to the party that has made the State and Nation what they are to-day, and on the principle that anything is possible to those who work and wait, he, unlike some of his fellows who because they have not been able to dictate terms and accomplish their personal desires for party success, believing that the success of the party is paramount, and now the greatest party in the greatest nation in the world recognizes his worth and rewards him for his loyalty.

He was foreman of the Logan Nation when it made its first appearance, this being the first Republican newspaper in the Logan Newspaper company, through whose authority the Logan Republican is sueed.

Mr. Odel is an enterprising and progressive citizen. He is mild and modest

whose authority the Logan Republican is issued.

Mr. Gdell is an enterprising and progressive citizen. He is mild and modest in disposition, and makes friends among all classes. He has lately built a beautiful home en Center street, where, with his wife and family, he expects to pass the remainder of his days.

Citizens of all classes, creeds and polities join in wishing Mr. Odell every possible success in life, and especially while in the service of Uncle Sam.

### CONDENSED MILK COMPANY STARTS IN RICHMOND.

Special to The Tribune.
RICHMOND, Utah, March 5.-The Utah

Condensed Milk company of Richmond, Utah, opened up their canning factory the fist of this month. This company has fist of this menth. This company has built a magnificent factory, which is 185 feet long by fity-six feet wide, making it a two-story building artistic in design, very substantially constructed and equipped with all the latest improved machinery, at a ceat of about \$56,000.

This company is comprised of many leading business men of the State and leading farmers of Richmond and vicinity, making a strong financial company. The factory will centralize 50,000 nounds of milk daily during the coming summer months, which means much to the city of Richmond.

menths, which means much to the city of Richmond.

The clitzens feel proud of this industry, and look upon themselves as being very fortunate in having men of such character to build up this great industry. Much can be credited to Mr. J. B. Rackliff, the promoter of the industry. He has spent a great deal of time and money in assisting to build up this industry, which means so much to the farmer. In his association in a business way with our leading citizens he has proven himself to be a man of excellent ability in the condensed milk business. Mr. J. W. Hendricks will be the president: C. Z. Harris, superintendent; J. B. Rackliff, general manager.

Special to The Tribune.

COALVILLE, March 4.—Some years ago the people of Hoyisville, three miles south of here, undertook to build a dancing and amissement hall. The proposition was not pushed very hard and interest died out. A few weeks ago new committees were appointed and they determined to make a strong effort to complete the building. They arranged their plans, and it now looks as though the building will be completed in a few weeks, as it is half built now.

The committee adopted a novel way of raising means with which to build the structure, which proved quite satisfactory. They decided to give a carnival and fair and have a queen to rule. A number of Hoyisville's fair maids were nominated and voted for for queen, but on Wednesday night when the contest closed the fight was between Miss Annie Malin and Miss Ethel Dobson. The friends of both were determined that their favorite should be elected, and spent a great deal of money, which of course went to the building fund. The latter lady was the winner. At a dance given last night, the queen was crowned by Bishop William Sargent, and she was given the keys of the town until the carnival was over.

The carnival was held today, and there was a good time for everybody. People who did not have money to donate to the building fund gave a calf, pig, chickens, horse or anything salable. Everything was auctioned off and quite a neat sum was raised from the sales, Besides there were a great many articles of value and use donated by the ladies, which were sold. A dance was given for the children, and the day was a memorable one in Hoytsville.

The new hall will be about 60x50 feet, net including a large stage and two dress. taken on new life and vegetation of an kinds has started to grow.

The Enterprise Reservoir and Canal company, of which G. A. Holt is president, expects to resume in a short time speakers who uttered words of culogy for the departed and comfort for sortice building of a dam at the mouth of rowing relatives were: Jesse M. Smith, Alex Dawson, John W. Thornley, Henry Hobbs, William Murphy and William N. Nalder.

The deceased, who was born in 1839, The deceased, who was born in 1859, came to Utah as a teamster in Johnson's army in 1858 and five years later married Angeline King From this union twelve children were born, ten boys and two girls. The wife, the two daughters and six sons survive the father. Mr. O'Brien was a good neighbor and a man whose bond was needless where his word. whose bond was needless where his word was given. In educational matters he always evinced deep interest, as is shown by the advantages in this line he has given his family.

## The Arrest of Alex. Jennings.

Special to The Tribune.

GUNNISON, Utah, March 5.—Alex Jennings, who resides at Lewan, Utah, was arrested here yesterday by the city marshall of this place and turned over to the Sheriff, who took him north this morning, where he is wanted, it is alleged, for complicity in some arson cases in Utah and Salt Lake counties.

## MURRAY NEWS ITEMS.

At the City Council meeting last Tuesday the question of the alleged illegal appropriation by the former Council of \$25 for each of the officers was discussed. Those concerned have refused to pay back the amounts received, taking the stand that they had acted within the confines of the law by appropriating and receiving an equivalent for extra labor performed for and in the interest of the city. The Council finally disposed of the matter by adopting the motion of Councilman Wood to take no further action, by a vote of four to one. A number of the ex-officers were present. Councilman Berger voted in the negative.

William Erwin, the 8-year-old son of Mr. and Mrs. William Love of Mill creek, died of croup and pneumonia. Rev. Andrews of the Baptist church will lecture next Sunday evening on the subject "Last Days." The Socialists will meet at the resi-

came in on the last heat with a big majority for their candidate, Miss Eliza Siggard, daughter of P. P. Siggard, one of our well-to-do citizens. All day Friday the above candidates changed places on the special bulletins at the drug stores and newspaper offices. At intervals in the dance the count was announced, creating loud applause from those interested. The ballot closed at 11.05 p. m., with the following count: dence of Dr. Marriott on Friday, March 18th, in commemoration of the pro-claiming of the Paris commune. The South Cottonwood amusement committee will give a character ball next Tuesday evening at the ward meeting-house. Prizes will be awarded

for the best sustained characters.

Rules and regulations have been adopted by the four lodges here as a basis upon which stock will be issued to build the much mentioned union hall, which will be a credit to our town. The erection of the building is practically assured. number of his friends. cally assured.

## MANTI FOREST RESERVE GRAZING PRIVILEGE GREATER

Special to The Tribune.

Special to The Tribune

EPHRAIM, March 5.—The cattle-owners and farmers of the cities in Sannote and Emery counties will be greatly pleased to learn that Supervisor A. W. Jensen of the Manti forest reserve has socured from the Department of the Interior a modification or the order relative to the number of horses and cattle to be allowed on the districts numbered 5 and 6 of the Manti forest reserve. The following telegram from the department was received yesterday by Supervisor A. W. Jensen:

"Washington, D. C., March 4.—A. W. Jensen, Forest Supervisor, Ephraim, Utah,—Seven thousand cattle and horses allowed in district 5 and 200 in district 6; 300 additional in other districts, making a total of 19,500 in reserve.

total of 19,500 in reserve.

"J. H. FIMPLE, Acting Com."

The total number of horses and cattle to be grazed on district No. 5 was, before the modification was received, 4000. On district 6, 2000 head were allowed. The new order permits 2200 head of animals, including horses and cattle.

### FUNERAL OF MRS. TAYLOR IN THE PROVO TABERNACLE

Special to The Tribune.

PROVO, March 5.—The funeral serv-ces over the remains of Mrs. George S. Taylor were held at the stake tabernacle this afternoon. There was a large crowd present. The funeral procession from the family residence to the taber-nacle was led by the B Y. U. band, fol-lowed by representatives of the Sons and Daughters of Pioneers' society, the B. Y. U. faculty and student body and relatives of the family and friends.

The services were presided over by Bishop Snow of the Fifth ward and the university choir furnished the music Following were the speakers: Elders George H. Brimhall, Oscar B. Young, B. H. Hinckley, J. B. Keeler of Provo, Jo-seph E. Taylor, W. H. King of Salt Lake and S. L. Chipman of American Fork. The pall-bearers were Prof. E. S. Partridge, B. F. Hinckley, N. L. Nelson, J. L. Brown and J. T. Swenson of the university faculty.

## Millionaire Cudahy's Condition.

Special to The Tribune.
WASHINGTON, March 5.—The bill regarding lands within the five-mile limit of Fort Hall reserve has passed both houses of Congress, due to the good work of Senator Dubols and Congressman French. It now goes to the President. PASADENA, Cal., March 5-Michael Cudahy, the Chicago millionaire packer, who was operated upon last Tuesday at Pasadena hospital for mastolditis, is reported to be slightly improved and on the way to rapid recovery of his health. His condition has not been regarded as critical at any time during his lliness. The concurrent resolution introduced by Senator Heyburn passed the Senate. It directs the Secretary of War to cause a survey and estimate to be made of the cost of removing obstructions to navigation in Salmon river, ida., from Salmon City to Lewiston Efforts will be made to push it in the House.

Entire stock of books at 28 to 50 per Judge Hiles, a witness in the Smoot case, arrived today, cent off, Tues, morn. A. R. Derge & Co.

TRIBUNE BUREAU, Murray King, Correspondent.

## MAJESTIC SENSATION SETS THE PARK WILD

Special to The Tribune.

FARK CITY, March 6 .- The sensation of the hour is the great Majestic strike. Hundreds of people from Park City, Heber and Kamas are crowding the Elkhorn district region and locating everything outdoors as the result of a disclosure of ore in the new Majestic shaft several days ago.

Tuesday, J. C. Nelson, one of the principal owners of the Majestic, slipped quietly into town with a sack of ore, which has since set all Park City and several neighboring towns by the cars, despite the strenuous efforts of the discoverers to hide the fact of the discovery. Two days later rigs with loads of bonanza seekers stole out after the others covertly from town and soon the hills were lined with prospectors. Somehow the news became known among the old-time prospectors of Kamas and Heber and parties from these places have since located great stretches of country lying within the confines of the district. It is figured that all the country lying to the north, south and east of the Majestle for several miles is located. At least seventyfive prospectors were out from Park City yesterday. One person who located a group of ten claims south of the Majestic grounds yesterday knocked a piece of ore from the croppings of a conspicuous ledge that showed large quantities of carbonates

and galena. And what is the cause of this notable stir in mining circles here? It is a harmless-looking hole in the ground projected several days ago and con-taining a seam of ordinary looking rock; but this rock assays as high as \$78 in values and this is the secret of

Several days ago the Nelson brothers planned the sinking of a new shaft and it is to the experience and foresight of James Douglas that the present dis-covery is due. On the grounds is an old, abandoned shaft, said to be sunk some 40 years ago by Mexicans. It contains several Spanish names carved upon the side of the shaft at a depth of 40 feet and goes down through a quartzite literally shot up with glittering particles of galena. Mr. Doughs reasoned that this shaft was in the hanging wall, close to the vein and west eastward 40 feet and southward or toward the vein 20 feet and began to take the state of 15 feet one lack of the second southward or toward the vein 20 feet and began to take the second southward of 15 feet one lack of 15 sink. At a depth of 12 feet one inch of carbonate ore was encountered, dipping toward the shaft at a very slight pitch. Mr. Nelson secured some samples and hurried to Park. Assays by Hansen at the Ontario mill showed in one instance 24.6 ounces silver and 27.4 per cent lead and 09 ounce gold, and in another in-stance 14.6 ounces sliver and 3.4 per cent lead, the latter assay being outside cent lead, the latter assay being outside the ore seam. The ore has been fol-lowed for thirteen feet, clinging as it does tenaciously to the footwall. In that space it has widened to a seam of twenty inches, showing a slight in-crease in width with every foot of the depth, the increase in values being just as marked. One of the most re-cent assays shows values to the amount of over \$70, the distribution of metals being as follows: Silver 43 ounces and being as follows: Silver 43 ounces and a fraction, and lead slightly in excess of 60 per cent. The ore is mainly a carbonate of lead, filled with particles of galena and is considered, in view of nearness to the surface and the con-stantly increasing size of the deposit, stantly increasing size of the deposit, to be one of the most important strikes in Park for over a year. Only one wall of the vein is in sight, so that its extent can only be conjectured. The vein is in the deposit, and become a power of the newly discovered for the newl

of three or four dollars. An average of three or four collars. An average sample taken from the entire face of the shaft was found to be worth nearly \$14. On the dump is about a half car-lead of good shipping ore which will net about \$40. Lime, porphyry and net about \$40. Lime, porphyry and quartzite are in close proximity, show-ing a very promising contact system. Mr. Douglas, to whose good judgment Mr. Douglas, to whose good judgment the credit of the discovery is due, said today that he intends following the ore whatever direction it takes, even if it is necessary to follow it with a raise. The discovery is looked upon by mi-ning men here as an event which is destined to sweep to the front a great new mining district and in their minds ranks with the Quincy discovery of anks with the Quincy discovery of

several years ago.

The new region affected by the strike is an immense sweep of country lying five miles east of Park and stretches for ten and fifteen miles eastward. It is readily told by the universal appear-ance of porphyry cut by northeast and southwest fissures. It is entirely difsouthwest fissures. It is entirely dif-ferent from the bedding plane system in the vicinity of Park City and is firmly believed by the majority of mi-ning men here to be the Ontario sys-tem of fissures, carried eastward into the porphyry formation.

Manager C. S. Ralph came post haste to Park City this morning to view the

to Park City this morning to view the new find in the Majestic and is taking several sacks of ore back with him this evening for display in the com-pany's office in the D. F. Walker build-ing.

SILVER KING CON.

The Silver King Consolidated was forced to close down again on account of a leakage in one of the bollers. A leak was sprung in the one recently patched last night and it was found im-possible to furnish enough steam to handle the water. The layoff is quite comprehensive and no one will be kept at work but a few men to run a raise from the 500-foot level up for a triple compartment shaft. The shutdown will last for at least a month, by which time the two new bollers ordered will have arrived and will have been inatalled.

The enlarging of the shaft was re-cently decided upon and will furnish the room and facilities needed for the extensive underground operations that are planned by the Consolidated. By a series of misfortunes with their old bollers the mine has hung on the 700foot level for over a month and the shaft had just been emptied and sink-

## Bright's Disease and Diabetes News.

1737 Broadway, San Prancisco. Feb. 29, 1904.

To the church women of Utah:

It is so hard for people to believe that Bright's Disease and Diabetes are now curable that I am asked to permit reference to my own case. I shrink from it but there are too many dying to remain silent. To be brief I had both Bright's Disease and Diabetes for over five years. Usual Dropsy, nails came off, and the case was so hopeless that the physicians told us there was no need to diet and to give me any-thing I craved. I heard that people were being cured in this city and procured the treatment. In a few monthy the nails came back, dropsy disappeared and in a year I was well. To show how well, will say that several years after my recovery I stood a capital operation at the Waldeck Sanitarium in the presence of six physicians, Many friends, including Dr. Markell of Cloverdale and Judge E. B. Cutler of Pine street, are fully cognizant of my recovery from Bright's Disease and Diabetes. In fact Judge Cutler is himself now recovering from Diabetes un-der the same treatment. Let the cure be proclaimed to the world. MRS. S. E. CLINE.

This is entirely correct. E. B. Cutler, The above refers to the newly discov-

Leading Specialty Cloak, Suit, Skirt and Waist House in the City.

Our buyer, Mrs. Hamilton, has just returned from New York, where she has spent the last two months, selecting the handsomest line of new spring ready-to-wear garments ever shown in Paris and New York.

THE STYLES ARE MOST CORRECT. EXCLUSIVE AND WELL SELECTED.

They consist of elegant model gowns and hats, custom tailor-made suits, smart coats and the correct shirt-waist suit, which every lady will wear this season.

## PRICES IN RANGE OF ALL.

This season our tailor-made department will range in prices from..... from ...... \$10.00 up Our ellk dress deparment Handsome, dressy gowns and costumes. \$25.00 up

NEW CREATIONS in neckwear, belts and veilings AT POPULAR PRICES-JUST RECEIVED. Large shipments for all departments arriving daily. Call and we will be pleased to show our new goods.

HAMILTON'S, 216 MAIN.

## ... HAVE YOU SEEN ...

Our new \$10 and \$12 Suits, our 50c Neckwear, our \$1 Shirts, our \$1 Gloves, our 25c Hosiery? Well, there's a treat in store for you here.
